

About the Authors

Dr. Mehjabi Hashmi working as Teaching Assistant Bundelkhand University, Jhansi (U.P). she did her PhD in Plant Pathology from SVPUA&T, Meerut. She did P.G. & graduation from Bundelkhand University, Jhansi (U.P). She awarded Chancellor gold and 3 chancellor silver medals for Highest percentage in all courses in the university and also awarded inspire fellowship by DST, Ministry of Science and Technology, Government of India in Ph. D. Program. She has got accession number and ITCC No. of Trichoderma Spp. She has published several research papers in different journals of repute and 5 book chapters.

Dr. Nilofer obtained her Ph.D. in Biological Sciences from CSIR-Central Institute of Medicinal and Aromatic Plants. She currently serves as Assistant Professor at Integral University. With over 25 publications in national and international journals, her research focuses on plant physiology, agricultural practices, stress biology, and enhancing secondary metabolite production. Dr. Nilofer's expertise extends to areas such as plant environment interaction, propagation, post-harvest processing, and enzymatic activities in plants, with a particular interest in the effects of photosynthesis.

Dr. Anand Milan awarded his Ph.D. in Plant Pathology from Acharya Narendra Deva University of Agriculture & Technology, Kumarganj, Ayodhya (U.P). He has received his B.Sc. Agriculture from Atarra P.G college Atarra, Banda, affiliated to Bundelkhand University, Jhansi and M.Sc. Ag. Plant Pathology from SHUATS, Naini, Prayagraj, Uttar Pradesh. He has published many research papers in journals of repute. He has written several book chapters.

Dr. Anoop Kumar completed his Ph.D. from the Department of Plant Pathology, S.H.U.A.T.S., Prayagraj, Uttar Pradesh. He was completed his B.Sc. Agriculture from A.N.D.U.A.T., Kumarganj, Ayodhya, and completed his M.Sc. (Ag.) in Plant Protection specialization in Plant Pathology from S.H.U.A.T.S., Prayagraj, Uttar Pradesh. He was qualified ASRB NET Plant Pathology in 2018. He has contributed to many publications including research articles, review articles, book chapters and popular articles.

Edition: 1st

Publication Year: 2023

Pages: 235

ISBN: 978-3-96492-552-7

Price: € 22

Content

S. No.	Chapters	Page No.
1.	Introduction to Plant Pathology	01-08
2.	History and Growth of Plant Pathology	09-19
3.	History of Fungicides	20-26
4.	Biotic Causes of Plant Disease	27-33
5.	Growth and Reproduction of Plant Pathogens	34-40
6.	Survival and Dispersal of Plant Pathogens	41-44
7.	Host-Pathogen Interactions	45-57
8.	Recognition and Infection Plant Pathogens	58-64
9.	Disease Development	65-79
10.	Defense Strategies Against Plant Pathogens	80-93
11.	Genetics of Resistance in Plant Pathogens through Hypersensitive Response	94-112
12.	Genetic Engineering for Disease Resistance in Agriculture	113-123
13.	Detection of Plant Pathogens	124-142
14.	Plant Disease Management by Different Strategies	143-167
15.	Epidemics in Plant Pathology	168-179
16.	Epidemiological Basis of Disease Management	180-189
17.	Plant Disease Forecasting Systems	190-201
18.	Disease Escape, Non-Host and Disease Tolerance	202-214
19.	Host Defense System	215-226
20.	Soil and Root-Inhabiting Fungi	227-232
21.	Biological Control of Soil-Borne Diseases	233-235
